The accompanying notes are an integral part of the consolidated financial statements

Platmin Limited

(A development stage company)

Notes to the Interim Consolidated Financial Statements

(Unaudited, expressed in U.S. dollars, unless otherwise stated)

1 Nature of operations and going concern

Platmin Limited (the "Company") is a development stage Natural Resources Company engaged in the acquisition and exploration of Platinum Group Metal ("PGM") properties in South Africa, which was incorporated under the Canada Business Corporation Act on May 23, 2003.

These financial statements have been prepared using Canadian generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they come due. For the three and six months ended August 31, 2008 the Company incurred a loss of approximately \$4.8 million and \$8.4 million respectively and as at August 31, 2008 had an accumulated deficit of approximately \$38.5 million. There are approximately \$162.4 million in existing development commitments as at August 31, 2008. In due course, the Company will have to secure additional financing to carry out planned and future exploration and development activities. Such circumstances lend to substantial doubt as to the ability of the Company to meet its obligations as they come due and accordingly the appropriateness of the use of the accounting principles applicable to a going concern.

The Company raised capital by way of a public placement during the previous financial year and had approximately \$61.5 million in cash and cash equivalents at August 31, 2008 to fund exploration and development and meet contractual obligations. The Company's ability to advance its exploration and capital properties is dependent upon its ability to fund its working capital and expenditure requirements and eventually to generate positive cash flows, either from operations or the sale of a property. The Company's financing efforts to date, while substantial, are not sufficient in and of themselves to enable the Company to fund all aspects of its operations. Management expects that the Company, based upon the underlying value of its exploration projects, will be able to secure the necessary financing to meet the Company's requirements on an ongoing basis. Nevertheless, there is no assurance that these initiatives will be successful.

2 Basis of presentation and recent accounting changes

The unaudited interim consolidated financial statements have been prepared by the Company in accordance with Canadian generally accepted accounting principles ("GAAP"). The preparation of the financial statements is based on accounting policies and practices consistent with those used in the preparation of the audited annual consolidated financial statements except as noted below. The accompanying unaudited interim consolidated financial statements should be read in conjunction with the notes to the Company's audited consolidated financial statements for the year ended February 29, 2008, since they do not contain all disclosures required by GAAP for annual financial statements. These unaudited interim consolidated financial statements reflect all normal and recurring adjustments which are, in the opinion of management, necessary for a fair presentation of the respective interim periods presented.

New accounting policies

On January 1, 2008, the Company adopted three new accounting standards that were issued by the Canadian Institute of Chartered Accountants (CICA): Handbook Section 1535, Capital Disclosures, Handbook Section 3862, Financial Instruments — Disclosure and Handbook Section 3863 Financial Instruments — Presentation.

Capital Disclosures

Section 1535 specifies the disclosure of (i) an entity's objectives, policies and processes for managing capital; (ii) quantitative data about what the entity regards as capital; (iii) whether the entity has complied with any capital requirements; and (iv) if it has not complied, the consequences of such non-compliance.

Platmin Limited

(A development stage company)

Notes to the Interim Consolidated Financial Statements

(Unaudited, expressed in U.S. dollars, unless otherwise stated)

Financial Instruments Disclosure and Presentation

The new Sections 3862 and 3863 replace Handbook Section 3861, "Financial Instruments — Disclosure and Presentation", revising and enhancing its disclosure requirements, and carrying forward unchanged its presentation requirements. These new sections place increased emphasis on disclosures about the nature and extent of risks arising from financial instruments and how the entity manages those risks.

Future Accounting Changes

Inventories

Handbook Section 3031, Inventories, relates to the accounting for inventories and revises and enhances the requirements for assigning costs to inventories. The new standard applies to interim and annual financial statements for fiscal years beginning on or after January 1, 2008, and will be effective for the Company's annual and interim financial statements for the periods beginning on and after October 1, 2008.

The Company does not expect that this standard will have a significant impact on its consolidated financial statements.

International Financial Reporting Standards ("IFRS")

In January 2006, the Accounting Standards Board ("AcSB") formally adopted the strategy of replacing financial reporting under Canadian GAAP with financial reporting under IFRS, for Canadian enterprises with public accountability. The current conversion timetable calls for financial reporting under IFRS for accounting periods commencing on or after January 1, 2011. On February 13, 2008, the AcSB confirmed that the use of IFRS will be required in 2011 for publicly accountable for-profit enterprises. Financial reporting under IFRS will be required for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The Company will be required to prepare comparative financial statements in accordance with IFRS beginning with the three-month period ended December 31, 2010.

The Company is currently assessing the impact of IFRS on its consolidated financial statements.

Goodwill and Intangible Assets

In October 2007, the CICA approved Handbook Section 3064, "Goodwill and Intangible Assets" which replaces the existing Handbook Sections 3062, "Goodwill and Other Intangible Assets" and 3450 "Research and Development Costs". This standard is effective for interim and annual financial statements relating to fiscal years beginning on or after October 1, 2008, with earlier application encouraged. The standard provides guidance on the recognition, measurement and disclosure requirements for goodwill and intangible assets.

The Company is currently assessing the impact of this new accounting standard on its consolidated financial statements.

3 Capital Risk Management

The Company's objective when managing capital is to maintain adequate levels of funding to support development of its Pilanesberg project, to expand exploration activities in South Africa and to maintain corporate and administrative functions. Funds are primarily secured through a combination of equity capital raised and external debt. There can be no assurances that the Company will be able to continue raising equity capital and external debt in this manner. The Company invests all capital that is surplus to its immediate needs in short-term, liquid and highly rated financial instruments, such as cash and other short-term guaranteed deposits, all held with major financial institutions in South Africa and the United Kingdom.

Platmin Limited

(A development stage company)

Notes to the Interim Consolidated Financial Statements

(Unaudited, expressed in U.S. dollars, unless otherwise stated)

4 Financial Risk Management

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Company.

Market risk

Foreign exchange risk

The Company operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the South African Rand. Foreign exchange risk arises from future commercial transactions and recognized assets and liabilities denominated in a currency that is not the Company's functional currency. Management's policy is to review its exposure on a case by case basis. The risk is measured using cash flow forecasting.

The carrying amount of the Company's foreign currency denominated monetary assets and liabilities at the reporting date is as follows:

	Assets R 000	Liabilities R 000
South African Rand	1,241,449	555,772

Sensitivity

During the quarter under review the US Dollar had strengthened on average by 2% against the South African Rand. Based on the financial instruments held at August 31, 2008, had the US Dollar strengthened by another 10% against the South African Rand with all other variables held constant, the company's loss for the quarter would have been \$15,4 million lower as a result of foreign exchange gains on translation of non-US Dollar denominated financial instruments as detailed above.

Credit Risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the group. Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions as well as credit exposures to outstanding receivables. The Company has no significant concentrations of credit risk. Cash transactions are limited to high credit quality financial institutions. The carrying amount of financial assets recorded in the financial statements is adjusted for any impairment and represent the Company's maximum exposure to credit risk.

Sensitivity

Based on the cash held at August 31, 2008, had the interest rates increased/decreased by 1% the company's exposure would have been \$20,300 (2008: \$92,745).

Liquidity Risk

Prudent liquidity risk management implies maintaining at all times sufficient cash, liquid investments and committed credit facilities to meet the Company's commitments as they arise. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

Platmin Limited

(A development stage company)

Notes to the Interim Consolidated Financial Statements

(Unaudited, expressed in U.S. dollars, unless otherwise stated)

5 Loans due from related parties

	August 31 2008 \$ 000	February 29 2008 \$ 000
Moepi Platinum (Pty) Ltd. ⁽¹⁾	14,857	14,647
Tafida Investments (Pty) Ltd	3	3
Defacto Investments (Pty) Ltd	39	30
	<u>14,899</u>	<u>14,680</u>

The above entities are related to the Company through contractual arrangements in relation to potential prospecting permit applications.

These loans, except as identified below, bear no interest and have no fixed terms of repayment.

(1) The above loan relates to loan agreement signed between Moepi Platinum (Pty) Ltd ("Moepi"), previously called Moepi Capital (Pty) Ltd and Platmin Limited ("Platmin") during the 2007 fiscal year. The loan bears interest at LIBOR (currently 2.79%). The repayment of this loan has been extended by one year and the loan is repayable in full on November 1, 2008.

The shares in Boynton Investments (Pty) Ltd ("Boynton") that were acquired by Moepi at the same time as the loan are held by Platmin as security for the loan.

6 Restricted cash

Restricted cash consist of the following:

	August 31 2008 \$ 000	February 29 2008 \$ 000
Rehabilitation guarantees	729	681
Eskom guarantee	-	1,458
Larox letter of credit	-	2,269
	<u>729</u>	<u>4,408</u>

On June 17, 2008 a guarantee of \$10,477,993 (ZAR 84,987,000), underwritten by an insurance backed guarantee issued by Lombard Insurance, was provided to Eskom for the ordering of critical long lead time material, to reduce the project lead time. This guarantee replaced the guarantee of \$1,436,443 (ZAR 10,922,712) previously issued by ABSA Bank Limited, which was a money backed guarantee.

On February 28, 2008 a letter of credit was provided to Larox Corporation for the Pilanesberg Project. This letter of credit was issued by Standard Bank Limited and has lapsed on 6 June 2008 on completion of delivery.

The restricted cash is accounted for at fair value.

Platmin Limited

(A development stage company)

Notes to the Interim Consolidated Financial Statements

(Unaudited, expressed in U.S. dollars, unless otherwise stated)

9 Loss per share

Basic loss per share is calculated by dividing the net loss attributable to shareholders by the weighted average number of common shares outstanding during the year.

	For the three months ended August 31		For the six months ended August 31	
	2008 \$ 000	2007 \$ 000	2008 \$ 000	2007 \$ 000
Loss attributable to shareholders (\$000)	4,816	1,888	8,376	4,859
Weighted average number of common shares outstanding	111,586,760	95,128,093	111,578,476	94,465,453
Basic and diluted loss per common share in US\$ per share	0.04	0.02	0.08	0.05

As the Company is reporting a loss for all years presented and all potential common shares are anti-dilutive, diluted loss per share equals basic loss per share.

10 Mineral rights

	August 31 2008 \$ 000	February 29 2008 \$ 000
Mineral rights at cost	3,132	3,132

11 Deferred exploration expenses

(A development stage company)

Notes to the Interim Consolidated Financial Statements

(Unaudited, expressed in U.S. dollars, unless otherwise stated)

i) Pilanesberg project

The Company holds a beneficial interest of approximately 72.4% of the aforementioned properties. All of the prospecting permits in terms of the old law were converted under the Mineral and Petroleum Resources Development Act ("MPRDA") as described above. Four of the properties were transferred into a special purpose vehicle "Pilanesberg Platinum Mines (Pty) Ltd" which then made application for a Mining Right covering Tuschenkomst, Witkleifontein, Rooderand (Portion3) and Ruighoek (various portions). The Mining Right was submitted in November, 2006 and was granted on February 14, 2008.

The Pilanesberg project comprises various portions on seven properties (from north to south): Tuschenkomst 135JP; Witkleifontein 136JP; Rooderand 46JQ; Ruighoek 169JP; Vogelstruisnek 173JP; Bakhoutrantje 205JP and Palmietfontein 208JP. Boynton has entered into separate option contracts with the mineral rights owners in respect of the material portions of the properties.

ii) Mphahlele project

The Company currently holds a 57.2% beneficial interest in the Mphahlele project through its subsidiaries Mahube and Tameng. Tameng has entered into a notarial prospecting contract with the South African Government which granted to Tameng the exclusive right to prospect on the property Locatie van Mphahlele 457KS constituting the Mphahlele project. The Mining Right application for the Mphahlele project was submitted to and accepted by the DME in December 2007.

iii) Grootboom project

The Company holds a 72.4% interest in the Grootboom project through its subsidiary, Boynton. Boynton holds an exclusive right to prospect on the entire Grootboom project, excluding the chrome rights that belong to Samancor.

Mining Right Applications for both the Grootboom UG2 and Grootboom Tailings Projects were submitted to and accepted by the DME in November 2007.

iv) Loskop project

The Company currently holds a 72.4% interest in the Loskop project. Boynton holds prospecting rights over the project area which was granted under the MPRDA.

The Loskop project area comprises various portions of the four properties: Rietfontein 70JS; Kameeldoorn 71JS; De Wagendrift 79JS and Loskop Suid 53JS. Boynton has entered into separate option contracts with the mineral rights owners in respect of the material portions of the properties.

On January 29, 2003, Boynton entered into an option and joint venture agreement with a subsidiary of Lonmin PLC ("Lonmin") in respect of the Loskop project area. Under the agreement, Lonmin's subsidiary acquired the right to acquire a 50% interest in the various prospecting and option contracts comprising the Loskop project. It is also required to fund the cost of acquisition should it decide to exercise its option and acquire the 50% interest.

v) Other projects

The Company's other projects consist of various portions of the properties, Golden Valley 621IQ, Oorlogsfontein 25 KS, Vogelenzang 794KS, Annex Grootboom 335KT and Scheiding 407KS, and Tweelaagte 175 JP, Diamant 206JP and Kleingenoeg 174 JP. These properties are not contiguous to one another.

Platmin Limited

(A development stage company)

Notes to the Interim Consolidated Financial Statements

(Unaudited, expressed in U.S. dollars, unless otherwise stated)

Golden Valley

Boynton has a current prospecting right covering the Golden Valley property area.

Oorlogsfontein

The Company's interest in Oorlogsfontein is pursuant to an agreement with Platinum Group Metals (RSA) (Pty) Ltd. ("PTM") and Africa Wide Investments, whereby the Company has an indirect 39.4% interest and a 15% free carried interest in the Oorlogsfontein property until the completion of a full bankable feasibility study by PTM on the property at Oorlogsfontein.

Annex Grootboom and Scheiding

A Prospecting Contract was entered into on April 28, 2005 between Boynton, Sephaku Development (Pty) Ltd ("Sephaku"), BHP Billiton SA Limited ("BHP") and Samancor Limited ("Samancor"). In terms of the agreement, the old order Mining Rights of Annex Grootboom 335KT and Scheiding 407KS, originally held by Samancor, are to be transferred to BHP subsequent to a conversion being granted under the MPRDA. In terms of the same agreement, Sephaku was appointed to carry out exploration activities on Annex Grootboom and Scheiding on a contract basis.

The Company's subsidiary, Boynton, entered into an agreement on February 14, 2006 with Sephaku. The purpose of this agreement is to consolidate Sephaku's rights pertaining to the properties Annex Grootboom 335KT and Scheiding 407KS and in the case of Boynton, its rights to the Mphahlele project. Consolidation took place on November 29, 2006 for a consideration of 27,027 Boynton shares being issued to Sephaku. This transaction was accounted for at the carrying amount of the exchanged assets and, as a result, there was no impact on the consolidated financial statements.

Tweelaagte, Diamant and Kleingenoeg

The prospecting right to the above properties was granted on January 11, 2007, and an initial payment of \$27,415 in respect of prospecting fees was made.

12 Share capital

(a) Common shares

An unlimited number of common shares without par value have been authorized.

13 Bridge loan facility

On May 14, 2008, the Company signed a \$46 million bridge financing facility with Standard Bank bearing interest at Johannesburg Interbank Lending Rate (“JIBAR” currently 12.2%) plus 3% margin per annum. The facility is due to be paid with interest on December 1, 2008. In connection with this loan, the Company issued 300,000 warrants exercisable at \$6.95 per common share from September 15, 2008 until expiry of the warrants on May 14, 2011. The Company has classified this facility as held to maturity and the fair value of the warrants of \$846,238 has been treated as cost of the loan transaction and will be amortized to net income using the effective interest method over the loan term.

14 Stock options

The Board of Directors adopted a resolution dated May 3, 2005, which established a stock option plan (the "2005 Stock Option Plan"), pursuant to which options may be granted to directors, officers, employees and persons providing ongoing and contract services to the Company. The purpose of the Plan is to attract persons by offering to such persons the opportunity to acquire (or to increase) an equity interest in the Company through the purchase of shares under the Plan. Subject to adjustment made in the case of a share split of the issued common shares of the Company, the aggregate number of common shares that may be issuable pursuant to options granted under the Plan is fixed at 9% of the outstanding common shares of the Company from time to time and shall be calculated on an as-needed basis. Prior to the establishment of the Plan, options were issued to directors and employees, at the discretion of management, to compensate for services provided. This 2005 Stock Option Plan was re-approved in accordance with its terms at the Annual General Meeting held on June 26, 2008.

The Board of Directors adopted a resolution dated June 24, 2007, which established a stock option plan (the "2007 Stock Option Plan"), pursuant to which options may be granted to directors, officers, employees and persons providing ongoing and contract services to the Company. The purpose of the Plan is to attract persons by offering to such persons the opportunity to acquire (or to increase) an equity interest in the Company through the purchase of shares under the Plan. The maximum number of common shares reserved for issuance under the 2007 Stock Option Plan is 2,500,000 common shares. No stock options have been granted under the 2007 Stock Option Plan.

The following assumptions were used in valuing the options issued:

Options issued prior to June 1, 2007: risk free interest rate of 3.5%, expected dividend yield of nil, expected volatility of 100%, and expected option life of 3.5 years.

Options issued subsequent to June 1, 2007, but prior to February 29, 2008: risk free interest rate of 4.5%, expected dividend yield of nil, expected volatility of 66%, and expected option life of 3 years.

Options issued subsequent to February 29, 2008: risk free interest rate of 3.5%, expected dividend yield of nil, expected volatility of 73%, and expected option life of 3 years.

Details of stock options issued under and prior to the Plans, are as follows:

	Number of options	Weighted average exercise price \$
Movement during fiscal 2008		
Options outstanding, March 1, 2007	9,635,633	1.58
Granted	2,646,900	8.07
Exercised – compensation options	(767,813)	(3.79)
Exercised – options	(7,012,820)	(1.03)
Options cancelled – resignations	(40,000)	(0.70)

	<hr/>		<hr/>	
Weighted average	2.15	2,167,500	5.37	4,791,900

The Company records stock-based compensation expense and this is reflected in the consolidated statements of operations and deficit as follows:

	For the three months ended August 31		For the six months ended August 31	
	2008 \$ 000	2007 \$ 000	2008 \$ 000	2007 \$ 000
Management and consulting fees	689	1,295	1,525	1,397

At August 31, 2008 the fair value of stock options issued, which had not been charged to employee expenses, was \$6,839,2523 (2007: \$1,996,349).

Platmin Limited

(A development stage company)

Notes to the Interim Consolidated Financial Statements

(Unaudited, expressed in U.S. dollars, unless otherwise stated)

15 Loan payable

The long-term loan from Corridor Mining Resources (a subsidiary of Limpopo Economic Development Enterprise, previously Northern Province Development Corporation) bears interest at South African prime rate which is currently 15.5%, until otherwise agreed by the shareholders, and has no fixed terms of repayment. The loan is used by Mahube to fund exploration activities. The loan is to be repaid from the proceeds generated by the Mphahlele project in Tameng, a subsidiary of Mahube. The increase in the loan amount payable is due to the increase in exploration activities and costs leading to a bankable feasibility study for this project.

16 Asset retirement obligation

The DME required a rehabilitation guarantee of \$493,325 before approving the application for a bulk sample. The full amount was provided for in the 2007 fiscal year. The final retirement obligation was established on completion of the bankable feasibility study, and has been provided for now that construction has commenced.

On August 31, 2007 the NI43-101 Technical Report for the Pilanesberg Project was filed on Sedar. The DME required a further rehabilitation guarantee of \$7,026,901 (ZAR 50,442,060) before approving the application for a mining right. This guarantee was provided by Guardrisk Insurance Company Limited. Annual premium payments amount to \$551,691 (ZAR 4,500,000) and the first payment was made on October 1, 2007 and the last is due on October 1, 2009. Premiums are dependent on the Cover Limit and an annual review. Interest accrued to date amounts to \$8,657.

The Pilanesberg Mine is currently under construction and the estimate thus represents the current cost of environmental liabilities as at August 31, 2008. An annual estimate of the quantum of closure costs is required in order to fulfil the requirements of the DME, as well as meeting specific closure objectives outlined in the mine's Environmental Management Programme. This programme is intended to render the rehabilitated areas available for wildlife/ecotourism and/or livestock grazing.

Although the ultimate amount of the asset retirement obligation is uncertain, the fair value of the obligation is based on information that is currently available. The estimated liability for the asset retirement obligation at August 31, 2008 is \$2,777,526. This estimate includes costs for the removal of all current mine infrastructure and the rehabilitation of all disturbed areas to a condition as described in the mine's Environmental Management Programme. Follow up rehabilitation maintenance over a 3 year period is also included. The undiscounted value of this liability is \$4,595,535. The asset retirement obligation has been determined using a credit adjusted risk free rate of 9.5% and an inflation rate of 6% over a period of 16 years.

Platmin Limited

(A development stage company)

Notes to the Interim Consolidated Financial Statements

(Unaudited, expressed in U.S. dollars, unless otherwise stated)

17 Segmented information

The Company operates in one geographic segment, South Africa, and one industry segment, exploration of precious metals properties, mainly platinum group elements. All assets are held in South Africa.

Funds raised by the Company are held in USD, GBP and CAD interest bearing accounts in the United Kingdom (79%) and South Africa (21%) until required by the operations.

18 Contingencies and commitments

- The Company has guaranteed the rehabilitation of numerous exploration targets. As at August 31, 2008, the total guarantees held by a bank were \$691,089 (February 29, 2008 - \$653,238).
- Boynton has entered into an agreement with Impala Platinum Limited (Impala) for the right of first refusal to purchase PGM concentrate produced by Boynton from the properties, Ruighoek 169JP, Vogelstruisnek 173JP and Palmietfontein 208JP. Should Boynton elect not to accept the terms proposed by Impala, a break fee of \$2,089,573 in aggregate will be payable to Impala.
- Boynton has an obligation, which cannot be quantified, pro rata to its shareholding in Mahube to provide funding to Tameng to undertake the necessary exploration and development on the Mphahlele project. The consequence of not contributing accordingly results in dilution of Boynton's shareholding.
- In respect of a joint venture agreement with Western Platinum Ltd. (Lonmin JV), Lonmin will contribute a maximum of \$627 per hectare towards mineral rights existing under the joint venture and towards any additional mineral rights included later. Any costs beyond \$627 per hectare will be shared equally between Lonmin and Boynton.
- Boynton has entered into an agreement with Codoca Beleggings CC (Codoca) where Codoca will transfer its mineral rights to Boynton. A deposit of \$242,840 was paid to Codoca.

The remaining balances will be paid by Boynton if the following requirements are met:

Payment of 50% of the balance of the consideration amount within 30 days of being notified by the DME that a prospecting right in terms of the MPRDA has been granted and issued to Boynton, enabling and entitling Boynton to commence prospecting activities and also in respect of Codoca's undivided share in the mineral rights. The remaining balance for this, less the deposit, will be \$222,860.

- A Prospecting Contract was entered into on April 28, 2005 between Boynton and a BEE company, Sephaku, BHP and Samancor with respect to the property Annex Grootboom 335KT ("Annex Grootboom"). In terms of the agreement, Samancor as the holder of certain old order rights pertaining to Annex Grootboom 335KT and Scheiding 407KS (Scheiding), was obligated to apply for conversion of these rights under the provisions of the MPRDA. Subsequent to a conversion being granted, Samancor is obligated in terms of the agreement to transfer the rights to PGM's and all metals and minerals mineralogically associated therewith on Annex Grootboom and Scheiding (the "PGM rights"), to BHP.

Samancor lodged an application for conversion of the mining licence in December 2006. In terms of the same agreement, Sephaku was appointed to carry out exploration activities on Annex Grootboom and Scheiding on a contract basis.

In terms of the agreement, Sephaku has the right to, within one month of the completion of a Bankable Feasibility Study on Annex Grootboom, acquire from BHP the PGM Rights for cash consideration of \$8.00 per resource ounce as determined in a Bankable Feasibility Study in accordance with the SAMREC Code.

Boynton undertakes to assist Sephaku technically and financially to fulfill its prospecting obligation.

Platmin Limited

(A development stage company)

Notes to the Interim Consolidated Financial Statements

(Unaudited, expressed in U.S. dollars, unless otherwise stated)

- Pilanesberg Platinum Mines (Pty) Ltd (“PPM”), a subsidiary of the Company, has entered into an agreement with Metso Minerals for the supply, delivery, erection and commissioning of primary and secondary ball mills for PPM. On August 22, 2007 a deposit of \$1,141,788 was paid to Metso Minerals to start work on the above mentioned order. Should the Company elect not to continue with this order with Metso Minerals, a break fee of \$1,868,756, in aggregate will be payable.
- PPM also entered into an agreement with engineering firm Dowding Reynard and Associates (“DRA”) to implement the design and construction phase of the project. The total estimated value determined during the Bankable Feasibility Study (“BFS”) of the project was ZAR1.466 billion which equated to \$203,616,057 at an estimated exchange rate of ZAR7.20 at the time of the BFS.

19 Minimum lease payments

Office rental	\$ 000
2009	153
2010	165
2011	178
2012	193
2013	16
	<hr/> 705 <hr/>

During the first quarter of fiscal 2008, the Company’s subsidiary, Boynton, entered into an operating lease agreement for the rental of offices. The lease commenced on April 1, 2007, for a period of five years. The monthly rental will escalate by 8% per annum pursuant to the agreement. The Company has the right to renew the lease for a further period of up to five years, provided notice is given in writing at least nine months prior to the termination of the initial period.

20 Comparative amounts

Certain comparative amounts have been reclassified to conform to the current period’s presentation.
