Mr. John Astrup is the Company's qualified person for purposes of Canadian National Instrument 43-101. Mr. Astrup is an employee of the Company and is not independent of the Company for purposes of NI 43-101. Complete descriptions of data verification, exploration results and other technical and scientific information related to the Company's South African mineral projects are included in the reports entitled "Platmin Limited's South African Platinum Minerals Properties" dated May 15, 2006 and prepared by RSG Global which is available at www.sedar.com which should be read in conjunction with subsequent reports also available at www.sedar.com which were made available subsequent to the May 15, 2006 Report. Mineral resources that are not mineral reserves do not have demonstrated economic viability. References to "\$" in this presentation are references to Canadian Dollars unless otherwise stated.*

*** FORWARD LOOKING STATEMENTS**

** This Presentation contains "forward-looking information" which may include, but is not limited to, statements with respect to the future financial performance of the Company; the future price of PGMs (defined as an abbreviation for platinum group metals, being any one or more of, Pt, Pd, Rh, Os, Ir, and Ru); the estimation of mineral resources; the realization of mineral resource estimates; timing of the development of deposits; mines and smelters, costs and timing of feasibility studies and the timing and receipt of approvals, mining rights or prospecting rights or otherwise, licenses, and conversions under South African mineral legislation. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes" or variations (including negative variations) of such words and phrases, or state that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company and/or its subsidiaries and/or its affiliated companies to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, general business, economic, competitive, political and social uncertainties; the actual results of current exploration and development activities; conclusions of economic evaluations and studies; fluctuations in the value of United States dollars relative to the Canadian dollar or South African rand; changes in project parameters as plans continue to be refined; political instability; availability of electricity or sufficient electricity, the effects of HIV/AIDS on labour force availability and turnover; delays in obtaining governmental approvals or financing or in the completion of development or construction activities, as well as those risk factors identified in the Company's publicly filed disclosure documents available at www.sedar.com. There may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements due to the inherent uncertainty therein.*
